myTurf® Pro

WEB-BASED ASSET MANAGEMENT

CONNECT. *Capture, combine and access equipment & irrigation information on a mobile-enabled, real-time, web-based platform. Track utilization data through internet-connectivity of Toro or non-Toro equipment.*

MANAGE. *Customizable tools deliver interactive alerts, automated/proactive notifications, labor management and expense tracking, and instant access to mission critical service documentation and operational reports.*

MAINTAIN. *Order parts, schedule service activities and routine maintenance tasks, track inventory, monitor fleet health and labor expenses or generate reports that demonstrate operational excellence, 24/7.*
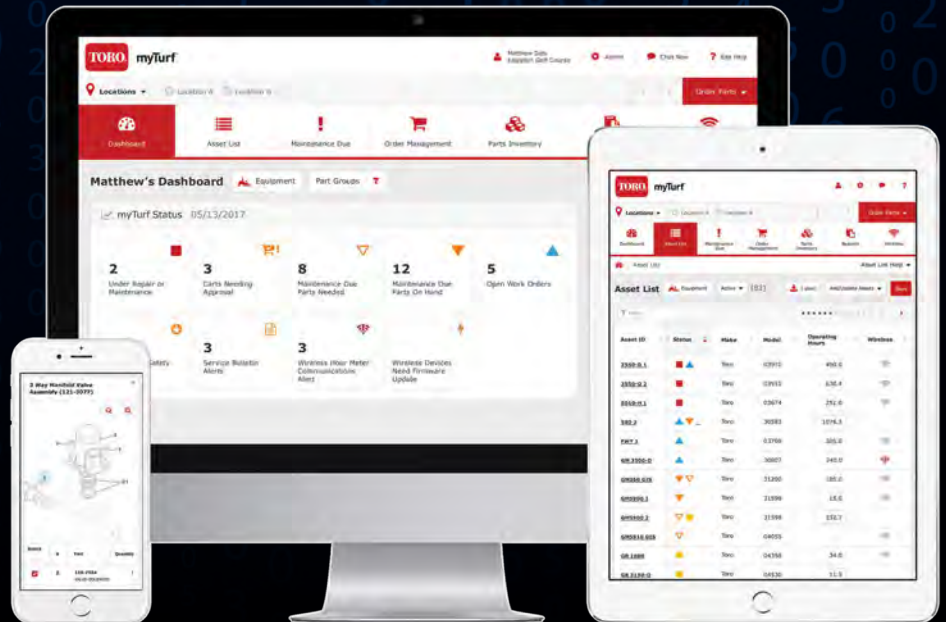

SIMPLIFY. *There's no other tool like it for turf professionals! myTurf Pro was designed to make your difficult job easier. It puts the optimization, efficiency and effectiveness of your operation at your fingertips.*

Connect. Manage. Maintain. Simplify.

myTurf Pro is a powerful, easy-to-use software application that tracks and manages all your assets, regardless of brand. Real-time data helps you improve staff efficiency, lengthen the life of your equipment and reduce overall maintenance costs across your entire organization.
